# CYCLESAFE ELECTRONIC ACCESS SYSTEM
## PROPARK® SERIES

As a pioneer in developing the most secure, versatile and cost effective bike lockers, CycleSafe now offers users convenient electronic access via a Trilogy® Networx™ Wireless Lock System.

Combining four world class product solutions to provide electronic access and remote management of CycleSafe's ProPark® Series Bicycle Lockers, promoting community cycling just couldn't be easier.

In addition to traditional keypad access, the PDL6100 supports all HID™ format proximity technology ID cards and fobs.

Finally, with the addition of CA3000 software and WebVantage® Booking Management and Payment System, fulfillment is fast, convenient and secure. Available with Premium and Ultimate Electronic Access for on demand or online reservation programs.
